To Whom It May Concern,

Re: Letter of Recommendation for Manish Ravindra Patil

As the Managing Director and Chief Technology Officer of CypherSOL Fintech India Private Ltd, with over 26 years of experience spanning Banking, Finance, and Technology, I am writing to provide my strongest possible recommendation for Manish Ravindra Patil. I have had the privilege of directly overseeing Manish's career progression since he joined us as a Jr. Data Scientist intern in May 2023. He quickly established himself as a high-potential talent, was brought on full-time in June 2024, and served with distinction until July 2025. Throughout his tenure, I have been consistently impressed by his technical depth, innovative problem-solving, and remarkable growth trajectory.

When Manish joined, he immediately took ownership of our core data extraction pipeline, a critical component of our fintech platform. He didn't just maintain the existing system; he fundamentally re-engineered it for superior scalability and accuracy. By applying advanced machine learning techniques, he solved a long-standing challenge of processing diverse and unstructured financial documents, which in turn significantly improved the throughput and reliability of our core service.

Manish's ability to handle ambiguous, high-stakes challenges is truly exceptional. I entrusted him to lead a highly sensitive project in collaboration with the Anti-Terrorism Squad (ATS) and the Economic Offences Wing (EOW) of Mumbai. Working under strict security constraints, he developed sophisticated financial analysis algorithms to map entities and trace fund activity. His work was instrumental in identifying high-priority leads in their ongoing investigations. It was his outstanding performance in this demanding, high-impact environment that solidified my decision to promote him to Senior Data Scientist.

Upon his promotion, Manish seamlessly transitioned into a leadership role. He took

two junior data scientists under his wing, effectively mentoring them and fostering a culture of technical excellence and collaborative problem-solving within his team. He immediately demonstrated his leadership capabilities by spearheading our next-generation OCR initiative. He led the project from end-to-end, delivering a solution that enhanced our product's market competitiveness by making it faster and more accessible on standard client hardware. This initiative directly contributed to a lift in sales by 10% and proved his ability to lead complex technical projects from conception to delivery.

Manish's combination of deep technical expertise, rapid learning agility, and proven leadership potential is exceptionally rare. He consistently seeks out and masters the most complex challenges, delivering solutions that have a tangible impact on the business. He has been an invaluable asset to our engineering organization, and he possesses the drive, intellect, and character to become a key technology leader in the fintech industry. I recommend him for any senior technical role with my highest endorsement and without reservation.

Sincerely,

Shamlata Poojary
Chief Technology Officer
CypherSOL Fintech India Pvt Ltd
